SELECTED WORK

I connect reader-first writing with practical website development and search. My work spans published SEO articles, Homat Academy, and multilingual content operations.

01 Homat Academy — SEO & WordPress

My language-learning platform. Developed custom WordPress plugins and PHP features, tested and deployed on the live site. Search Console recorded 77 clicks in September and 110 in October 2026 (+43%).

02 Multilingual content automation

Led a PHP/Python publishing workflow for four language-learning channels. Project documentation records 475 prepared content items, 29 automated checks, and fixes for scheduling and duplicate posts.
